Sub : Participation in Seminar and Exhibition - Programme

Dear Sir(s)/ Madam,

We have great pleasure in forwarding you the copy of Seminar Bulletin-2. You may be aware that the 14th NCB International Seminar had surpassed the best level of participation achieved in our earlier Seminars in many ways.

About 200 technical presentations shall be made in 25 technical sessions spread over four days in the 15th Seminar. Tentative programme is presented in the enclosed Bulletin.

An outstanding feature of this Seminar is the expansion of technical contents to include more themes on topics related to concrete and construction technology. Accordingly, sessions on performance and durability of concrete, sustainability and design practices, concrete deterioration mechanism and distress investigations, service life design & performance improvement etc have been planned.

More than 80 companies of world fame shall be showcasing their latest technological advances by way of charts, models and multimedia presentation in ~120 stalls in the concurrently organized technical exhibition.

Eminent experts in the area of cement and concrete technology have been invited to make special presentation during the Seminar.

A publication of Seminar proceedings (Abstracts) will be brought out in print form and CD of full papers presented in the Seminar will be released. You may submit your paper by 31st July 2017.

Last but not least, cultural heritage of India shall unfold by way of a performance on Dances of India, followed by Dinner, on one fine evening during the Seminar.

Looking forward to greet you at 15th NCB International Seminar.

Yours faithfully
for National Council for Cement
and Building Materials

Dr S K Breja
Organising Secretary

NATIONAL COUNCIL FOR CEMENT AND BUILDING MATERIALS
